Mr. J. L. Tryon of the Argus, is a candidate for the position of Assistant Inspector General on the staff of Brigadier General

Messrs, W. & C. R. Milliken, of Port-land, shipped 1,040,000 feet of lumber to Buenos Ayres, last Thursday. It requir-ed one hundred and four ears to bring the lumber to Portland.

The total value of exports from Portland, list week, was \$144,520.25, the chief articles being 1,789,425 feet of lumber, 399 barrels of apples, 40,422 bushels of wheat and 40,032 bushels of peas. and 40,032 bushels of peas.

At the Grand, Trunk ocean sheds, Portland, are four hundred and thirty-one cattle, and a number of sheep which were brought by rail from Chanda, and will be shipped by the Dominion steamer Ontario, to Liverpool. Some of the cattle are immense animals, one of them weighing seventeen hundred pounds.

The steamer intended for the Portland, Dampriscotta, Boothbay and Squirrel Island line is a propeller of about 200 tons, built in ISS. She is 122 feet long, 23 feet beam, guaranteed to steam 13 knots, and is first-class in every respect. It is decided to make the company a stock company of one hundred shares at \$130 each. One-half of the stock is already triken in Portland. It is hoped to have the bout running by the 15th of May.

One of the cows at H. J. Libby's farm

running by the 15th of May.

One of the cows at H. J. Libby's farm at Oak Hill, Searboro', is reported to be ufflicted with tuberculosis. Dr. George II. Bailey, of the cattle commission, rode out and examined the cow Monday. In answer to the question of the Argas reporter as to whether it is a case of tuberculosis, the doctor neither said it is, nor that it is not.

The Portland Potato Chip company which recently started business at 57 Temple street, are now using three bushels of potatoes a day, selling the chips mostly to Portland dealers. The potatoes are sleed by hand, soaked in water, dried, and then fried in hard to a crisp. This business is quite an industry in Massachusetts, where it has been successfully carried on formany years, and there is no reason why it can not flourish in Maine.

A party of well-known capitalists have

A party of well-known capitalists have been endeavoring to establish a factory in been enderworing to establish a factory in Portland for the manufacture of enamel cloth. The industry is new in that vicinity, there being no similar factory this side of New Jersey, excepting at Montreal. While the scheme is postponed for the present, it is not improbable that the company will be formed within a year. The amount of stock taken amounted to about \$60,000. Portland has ample facilities for the company's needs, and it is to be hoped they will decide to locale their plant there, if anywhere. If the company starts, being taken by the authorities. An order has been issued forbidding dogs to be steen the ruling the park unless they are led.

The woolen industry of Maine ranks next to the manufacturing of lumber. There are to-day, situated within the borders of our Ntate, sixty-five woolen mills, producing as good cloth as can be found anywhere on this continent; and our cotton products are sold in every market in

There is a decimal clock in Wiesbaden which is constructed on the following principle: The day has 10 hours, the hour minute 10 seconds and each second 10 rays thus dividing the whole day into 100,000 parts. A similar division is to be applied to the circle. Herr Moder, of that city, to the circle. Herr Moder, of that city, goes still further, and proposes to divide the year into 10 months—the even months of 36, the uneven ones of 37 days each. The advantages of this decimal system are placed in evidence, and the inventor hopes to see same adopted before long in spite of the present opposition.

BOUTELLE & BURR, PROPRIETORS. C A POUTELLE, EDITOR

All business letters should be addre licatelle & Burr, and communications inflamed for publication should be addressed "Editor of Whig and Courier"

WEDNESDAY, MAY II, 1897.

Fx-Governor Alger of Michigan, while in New York was approached on the subject of politics and expressed the opinion that Mr Blaine's chances of renomination at present are far greater than those of any other man mentioned for the place

t prominent lumber merchant of Can ada says If President Cleveland should asue a non intercourse proclamation, I beheve it would bankrupt Canada within six months Canada should behave Ferself and not attempt to force a way into our markets for free fish

Senator Plumb of Kansas, says if Mr Biame desires the nomination next year he can have it almost by acclamation, and that he could be elected against any nomi nee of the Democracy thinks the labor revolt will seriously empthe the Democrate

Fulsem has been experimenting during his sojourn at Florida and as a result is reported to have become convinced that |tel egraphing through water vithout the aid of wire will ultimately be made possible so that ships several miles spart at sea may communicate with one another. What next we wonder?

some of the Democratic papers as well as a few Democratic statesmen keep up their warfare on Mr Raudall, but when congress convenes Speaker Carlisle or any De nocrat who may succeed him will find that the good of the party demands the rerppoinment of Mr Randall to his old chairm inship, and he will continue to run thi igs on the Democratic side of the House to suit himself just as he always has done No doubt there are Democratwho would has to see Randall dethroned but they are afraid to attempt it

There will be a contest over the scat of the West Virginia Sentter—the regular with and Without Hoods, session of the Legislature having failed to elect a successor to Senator Camden the tovernor appointed Mr I ueas who contends that the election of Judge Faulkner at the special session was in violation of the State constitution and that in consequence he is entitled to hold the seat until the next regular session of the Legislature acoustic Senator Sherman is quoted as saying that acoust Stern & Jo.'s. the next regular session of the Legislature the point raised is a new one and has never been decided

Senator McPherson of New Jersey tries to be very enthusiastic over Mo Cicveland and says there will be no opposition to him in the convention The New Jersey delegation will, in his judgment solld for the President The New Jersey strikers, who a short time ago were. trying to boost Leon Abbett into the Sen ate by the most barefaced frauds, howling for (leveland and reform in the nex Democratic National Convention will be a touch ng specialle for the Mugwumps to ontemplate In New York Senator Mc Therson thinks the situation is rendered very uncertain by the attitude of the labor

Under the reform methods of President Cleveland's reform Collector in the New York (ustom House, sixteen new places have been created, three new confidential clerkships and thirteen new positions for exports the numerical force of employes has been increased 10" and the pay roll in of things one year ago. In the Surveyor's account Stern & Co.'s. trea ed \$32 la0 as compared with the state Department alone, sixty Republic in in spectors have been dismissed, and by some artful jugglery of the ervil service examinations their places have been filled in every cast by Democrats. This is the Democratic economy and reform applicad

He we dut in the (rayes case will oc casion onsiderable surprise. While we do not know what facts may have been laid before the jury, from the evidence as it has reached us in the despatches it is isfficult to see where the jury found anything which lessened the enorm ty of his come so as to bring it within the limits of murder in the second degree From the testimony of McFarland it appeared that RAILROAD BONDS, STOCKS, at the time of the shooting no attempt was being made upon the life of Graves, as he distinctly stated under oath that neither of the game wardens had anything in the hands when killed in their tracks by the personer - Judge Foster in his charge distinctly told the jury that the love of a dog or other property could not be regarded as sufficient cause to take human life, that Americans, Trustees the law only gives a person the right to take life when his own life is in immediate peril and certainly Graves life was in no mmediate peril from two men who had ne weapon wh tever in their hands and who had made no personal assault on b him We believe if ever a brutal murder was committed it was the killing of these two men, and so far as the facts have come to light in the trial, can see nothing to make it other than murder in the first degree The result, however, would be Blake, Barrows & Brown, the same under the new law, namely, imprisonment for life Sentence will probably BANKERS. 9 Central St be pronounced to-day

The Philadelphia Inquirer bounced into the field the other day as a defender of the Mugwumps against the charge that they bolted the Republican party largely on account of their free trade theories, and asserted that with some other candidate than Mr Blaine "nine nundred and ninety nine of each thousand would support the Republican ticket in 1888. Now comes the Boston Herald, however, with an editorial repudiating the championship of the Inquirer, and explicitly stating that the Mugwumps as a rule will support Mr.

Abstract of the Annual Statement of the FINA INSURANCE COMPANY, INSUR Cleveland as against any man the Republi-Cleveland as against any man the Republicans may put up and this too largely on Or. the First day of January, 1837, made to the State of Maine. caus may put up

"FACTS." |?)

The recent sheet called Facts is a comparison of the cost of Hife Insurance between the Connecticut Mutual Life and the Royal Arcanum I have to say that in this computation made by Mr. L. no allowance was made for the return of Surplus of the Connecticut Mutual, which goes to reduce the cost of the risk from year to year. The dividence rold no live holder of the dividends paid policy-holder of the Conecticut Mutual have equalled 30 per cent of the premiums re ceeived from them. This would materially change the figures made by Mr L. as he has made no ac-count of dividends in his calcula-tions All policies of the Connecticut Mutual have a value if not con-tinued, though it is better to keep in-

Maine F armer No lover of trotting stock but finds him self repenting this question over and over and over ugain, as he witnesses the per-Wanted Lost Found etc formances of our trotters, or reads of the still more remarkable records made by others "What is to be the limit of speed in our trotting classes? Probably no abler articles have been presented to the TOST sum of noney on Monday Pinder will consider the will have it at the Poll consider Marshill Matthey Poll consideration Marshill Matthey Poll consideration hished in our columns and written by Dr G II Bailey, on the "Ultimate Speed of the I rotting Horse"

It seemed to be clearly demonstrated that two minutes could never be reached The argument seems unanswerable, yet \_\_\_ who can limit the power of training, A support at girl for second work References breeding and development I went, years title! OHHO STREET ago, Flora Temple stood alone is a repre sentative of the 2 20 class Columns were written to prove that the utmost limit had been reached and the work of future years would be to occasionally equal this won derful performance As one considers the number of strides necessary to cover a mile, and their length, and then attempts Wanted to Purchase.

Latiroad Contractors Outfit and Plant Any

Market in dogs need house work at 5 Plm to imagine a horse making that distance in two minutes, thing seems impossible 50 also it would to reach 2 10, were it not for the fact that it has been accomplished 50, then, who shall place the limit? It will

the fact that it has been accomplished So, then, who shall place the limit? It will be found only in the measure of man's highest skill in breeding, feeding and training, no matter what figures are hung from the judges' stand.

In years ago, 230 was the mark toward which ambitious breeders were looking, and for which they were striving, while the few that had reached 220 were objects of the greatest interest as wonders of the race. Fo-day, how is it? One sire has seven trotters to his credit in the fiventy class, while the number trotting inside of thirty is so numerous that some publications are advocating the changing of the standard to 220, and leaving others to the slip w classes. When two-year olds can trot inside of 220, where is the limit for the mature horse? The trotter with a record of 2.30 does not attract the attention of the public as that of 250 did twenty classic to the standard to 220, where is the limit for the mature horse? The trotter with a record of 2.30 does not attract the attention of the public as that of 250 did twenty class that some public as that of 250 did twenty class that of 250 did twenty class that of 250 did twenty class that some public as that of 250 did twenty class that some public as that of 250 did twenty class that some public as that of 250 did twenty class that some public as that of 250 did twenty class that some public as that of 250 did twenty class that some public as that of 250 did twenty class that some public as that of 250 did twenty class that some public as that of 250 did twenty class that some public as that of 250 did twenty class that some public as the limit of 250 did twenty class that some public as that of 250 did twenty class that some public as that of 250 did twenty class that some public as that of 250 did twenty class that some public as the public as the some public as the some public as the some publ

tion of the public as that of 250 did twen-ty years ago.

All this is the result, not of chance, not of Link, but of the highest skill, study and perseverance. It tells a wonderful story of the possibilities of mun, with the unimals under his care and direction. The lesson is not alone for the horse breeder but applies as well to every department of -tock breeding. If any have failed of as great improvement then there has been implies a lack of the skil shown by our horsemen. Here is the point to be emphagreat improvement then there has been manifest a lack of the skil shown by our morsemen. Here is the point to be emphasized. Whatever may be the possible limit this lact meets as all, that the troting horse of the future, in order to win a name and place, must drop inside the birty class and show his ability to remain here. While exewding into the twenties in such numbers, there will be some to recep that the tensa, and already two have ecords of 2.10 or better. This being postible with two, must be with others, and herefore there may be a cutting down of ractions of seconds, as the other, classes with two, must be with others, and herefore there may be a cutting down of ractions of seconds, as the other, classes will and crowd to the front 11 2.08 is eached, what shall be gained, what shall be greated, which shall be gained, what shall prevent the cutting of yol the fraction? This generation may not see as much as this accomplished, but t is the objective point towards which thousands of breeders are continually looking, and for which they are striving. The performance of liarry Wilkes at San Francisco, making a mule April 2d, in 2.13½, sets people to thinking, and conjecturing what he may do before November, and he is but one of many capable of showing inside of 2.15. Whatever may be the limit of the future the present is what we have to deal with, and the lesson of careful systematic selection and breeding, of both sire and dam, cannot be too strongly presented. Here it the foundation opon, which specess must be too accomplished the limit in speed, it is the one great question to be considered.

A Tribute of Respect.

Whereas, The members of Mystic Tie Lodge desire to pay a tribute of respect to the memory of our departed sister. Ada E. Southard, who has been called from this to a life beyond, therefore,

Resolved, That in the death of Sister Southard we recognize the loss of a faithful member.

Southard we recognize the loss of a faithful member and the second was tender dur despets sympathy in this mounting family, and we would also assure the other before you buy, it will pay you this hour of grief.

PARS AND SCALP COVERED WITH LUZEMA

My little son, aged clight years has been afflicted with Eczema of the seally, an I at times a great portion of the boly, ever since, he was two years old it began in his wars and extended to his scalp, which began experience overcit with scale source, and from which he study lind spoured out counting in matter and lifeless. Undermeath those aby the cases technique and distress and those aby the matted and lifeless. Undermeath those aby the will be a superior of the stack of a failure of the hard and it has a sufferior of the hard sufficient was left at the back of the hard sufferior at high phy woull surach his head in all his pillow was envered with blood. I used to prove that his county was tried to prove this work has been any ways tried to prove this work him to the heaptful and to the lide of a reach a little but him to the heaptful and to

enred by the furthers Remedies, preval of on me to try them. I began to use them on the 16th of Annunri last. In section months of the disease was removed. Not a spot or stals remains on his scale to tell the story of his suffering. His hair has returned, and by thick and strong and his scale has as weet and octain as any child a in the world. I cannot say enough to express my gratitude for this wonderful cure by the Cutterra Remedies, and what all stindarly smileted to know that my statement is true and without evaggeration.

Out 6 183.

I have seen Mr McLay 8 boy when butly at feeted with the become. He was a pitfal sight to look at I know he has tried our best physicians, and did all a father could do for a suffering child, but availed nothing. I know that the statements he has made you as regards the curing of his by your cultium likems like are true in every pur ticular.

I do not know of my instance in which the Guil cura Remedies have failed to pr duce satisfactory results. I believe I have sol I more of them than of any other skin remedies I have ever hundled during the thirty three years of my experien e as a drug gist
